## Aimpoint T-2 Magnifier Mount H57mm/2.25" PIC

Mount for Aimpoint Micro T-2/CompM5 and 3X MAG Magnifier

Height: 57 mm / 2.25"  
Length: 87 mm / 3.30"  
Width: 45 mm / 1.78"  
Weight: 189 g / 6.7 oz  
EAN: 7340150702311

The **RDF-20225K Aimpoint T-2 Magnifier Mount H57mm/2.25" PIC** is a 57 mm high fixed mount for the Aimpoint® Micro® T-2™ and CompM5™ red dot sights (the height is measured from the top of the rail to the centerline of the optic) with a foldable yoke assembly for an Aimpoint® 3XMag-1™ Magnifier.

The **RDF-20225K** consist of an **RDF-20225 Aimpoint T-2 Flip Mount** and a **RDM-20225 Magnifier Yoke Assembly**, which allows the user to attach an Aimpoint® 3XMag™ Magnifier, etc., to the RDF-20225. The magnifier can be shifted from the up/use position to the down/stowed position, depending on the operator's requirement, or it can be removed all together – all without the need for tools.

The mount body also features a see-through channel, allowing M4-height iron sights to be used with the mount in place, when the RDM-20225 magnifier yoke is not attached to the mount. An optional illuminator Picatinny rail can also be attached to front of the mount. Also available is a backup rear iron sight, which can also be attached to the front of the mount.

### NOTE:

The RDF-20225K is designed for use with red dot sights featuring the Aimpoint Micro footprint and the same optical axis as the CompM5 and T-2 on rifles with MIL-STD-1913 or STANAG 4694 rails.

The mount and yoke are machined from 7075 T651 aluminum alloy and are hardcoat anodized, with hardened and corrosion protected steel locking parts and fasteners.
