

labradar

WHERE PRECISION MEETS INNOVATION

>> LABRADAR

- >> Accuracy of $+/- 0.1\%$.
- >> Works in any light conditions
- >> Virtually unlimited storage on SD card
- >> 65-3,900 fps
- >> Tracks 30 caliber bullets up to 100 yards at Standard Power
- >> Obtain muzzle velocity and five down range velocities
- >> Obtain velocities from bullets, arrows, pellets, paintballs
- >> Provides Average Velocity, Standard Deviation, Extreme Spread, Min/Max Velocities
- >> Bluetooth Mobile App

>> LABRADAR LX

- >> Accuracy of $+/- 0.1\%$.
- >> Compact Design
- >> Tough metal case
- >> Long lasting internal battery
- >> Works in any light conditions
- >> 65-5,000 fps
- >> Obtain muzzle velocity and one down range velocities
- >> Obtain velocities from bullets, arrows, pellets, paintballs
- >> Provides Average Velocity, Standard Deviation, Extreme Spread, Min/Max Velocities
- >> Bluetooth Mobile App
